WE ARE REBOOTING!

After a year off, we're happy to announce that Reboot'22 is back and better than ever! Join us as we gather with the world's digital activists to discuss, plan, and advocate for the digital future we want. Whether you're a digital activist, policymaker, or tech innovator, you're invited to share your ideas and proposals for a better digital world.

Focus on Women's Rights
Women's rights are fundamental human rights, and we need to ensure that they are respected and protected. Join us as we discuss how we can work together to ensure that women have equal access to technology and opportunities.

Celebrating women's rights

Kavita Reddy

We are excited to welcome

A special guest for Reboot'22!
